

Gain a Higher Viewpoint of Your Benefits Strategy

Alliant's 2021 Benefits Benchmarking Survey closes April 30

As an HR professional, you have your hands full and this past year has added an extra layer of challenges. Alliant's Benefits Benchmarking Survey helps you uncover how your organization's benefits compare to others in your industry. The insights gained enable you to make adjustments to your benefits program where you can, yet stay competitive where you need to be.

The benchmarking survey is now open (closing April 30) for the following industries:

- **Healthcare** (hospitals, health services, healthcare providers)
- **Legal** (law firms, legal services)
- **Real Estate** (real estate developers, property managers, residential services)
- **Tech Sector** (software and hardware developers, SaaS, computer services, and other technology vendors)

Alliant's 2021 Benefits Benchmarking Survey focuses on:

- Core benefits
- Non-traditional benefits and perks
- 401(k) plan design features
- Pandemic impacts including return to work, mental health, and more

All participants receive a summary of results with highlights of key findings. You'll learn how your organization compares to your industry peers, giving you an informed perspective of where you may want to make adjustments or additional considerations.

The survey takes approximately 35 minutes to complete to get the insider information you need. Drive the next phase of your benefits strategy from a higher viewpoint.

Ask your Alliant representative how you can participate or [contact us here](#) today.
